Thermo Fisher Scientific Makes Finnzymes Products Available Through Fisher Scientific

Customers Gain Access to Advanced PCR/qPCR Technologies and Ease of Ordering

LAFAYETTE, Colo. (June 24, 2010) – Thermo Fisher Scientific Inc., the world leader in serving science, today announced that the Finnzymes line of advanced PCR and qPCR products is now available in the U.S. through its Fisher Scientific channel, providing customers with greater access to these products and ordering convenience.

Finnzymes was recently acquired by Thermo Fisher, and this line of products is now part of the company's Thermo Scientific PCR portfolio. Finnzymes product families now available through Fisher Scientific-U.S. include:

Phusion® High-Fidelity and new Hot Start II Polymerase reagents

Phire® Hot-Start and Hot-Start II PCR reagents

Direct PCR kits for plant, blood, tissue and FFPE sections

DyNAzyme™ DNA Polymerases

DyNAmo™ qPCR reagents

These products will also become available through Fisher Scientific in Canada and the United Kingdom within the next few weeks and through additional distribution and direct channels in other parts of the world over time.

“We are pleased to make Finnzymes products more readily available to our customers,” said Michael Deines, global director of marketing for genomics at Thermo Fisher Scientific. “These leading PCR and qPCR tools offer greater speed and yield in amplification as well as higher fidelity and specificity, enhancing our customers' efficiency and effectiveness in the laboratory. Fisher Scientific provides its customers with convenient ordering and an extensive network of field and support staff.”

Finnzymes products may be ordered 24-hours-a-day through Fisher Scientific-U.S. by calling 1-800-766-7000, faxing 1-800-926-1166 or visiting www.fishersci.com.

In Canada and the United Kingdom, customers may contact their regional Fisher Scientific offices for availability and ordering information.

Thermo Scientific is part of Thermo Fisher Scientific, the world leader in serving science.

About Thermo Fisher Scientific

Thermo Fisher Scientific Inc. (NYSE: TMO) is the world leader in serving science. Our mission is to enable our customers to make the world healthier, cleaner and safer. With revenues of more than \$10 billion, we have approximately 35,000 employees and serve customers within pharmaceutical and biotech companies, hospitals and clinical diagnostic labs, universities, research institutions and government agencies, as well as in environmental and process control industries. We create value for our key stakeholders through two premier brands, Thermo Scientific and Fisher Scientific, which offer a unique combination of continuous technology development and the most convenient purchasing options. Our products and services help accelerate the pace of scientific discovery, and solve analytical challenges ranging from complex research to routine testing to field applications.
